

Message from the Headteacher:

Hi All,

Welcome to the last newsletter of the spring term.

We really appreciate all the support from our families.

Enjoy the Easter break and have a well deserved rest.

Kind Regards,

Ben Hawes

Arbor Parent Portal

We currently have 63% usage on the portal.

Please download from your Play Store on your phone, the Arbor App.

Go to <https://login.arbor.sc/> and click Forgot your password?

To finish creating your account you just need to set a password. Your username is your email address.

If you have any queries, please contact the school office.

School Calendar

1 April	Last day of term
4 – 18 April	Easter Holiday
19 April	Pupils return to school
2 May	May Day – Bank Holiday

Parental Engagement

A career fair gives students a positive start in their career search as well as valuable skills for future career searches. On the 11th of March, Employers, Colleges, and Training Providers set up stalls meeting with our Students and Parents. As a new Leadership Team, we strongly feel that early Careers, Training and Guidance interactions will ensure Students' and Parents are making informed decisions in Preparation for Adulthood.

Our next Alternative Provision Fair (Progression outside of Education and Training) will take place at Brookfield House in Term 3. Please continue to engage to ensure you are aware of the dates for our school events.

Parent Point Meetings

Parents can book a 30min appt with Edith @WM or Sam @BH via the Arbor App under Parent Engagement.

Alternatively, you can speak with our Admin Team, at our reception desk or over the phone.

Learning @ BFH – Red Class

Red Class have been enjoying their celebrations of cultural day, and the build up to it this week. Red Class have been visiting Chile, allowing learners to be exposed to a range of Chilean experiences. In food technology learners have been making a Chilean banana milkshake. They experienced selecting the ingredients, chopping the banana, and activating the blender.

Learners have also participated in creative arts lessons allowing them to create traditional Chilean clothing using red and blue paint. They were then able to dress up in the costumes they had created.

Throughout the week learners have continued to develop their communication skills using their preferred method. For some learners this is through the use of PECS (Picture Exchange Communication System).

Learning @ WM – Adeptian

For the last 2 weeks, the sunny weather in the afternoon allowed us to have our Math's lessons out in the playground! We used lots of games such as the connect4 board and balls to help us learn about splitting items into 2, learning about doubling and halving and taking turns with each other to answer questions out on the playground.

We had great fun doing so and hopefully if the weather is even better, we can have even more fun lessons outside!

Forest School Experience

Another Wednesday morning spent close to nature.

On 30th March 2022 the students from WMC took part in another Forest Schools Experience session. Look at those happy, smiling faces going on the school minibus, heading to the Epping Forest!

Today, we started with the short revision of the rules we needed to follow when being in the forest. Then, students marked the boundaries tying red ribbons around the trees so everyone could know how far they can go.

The main activity combined PE, English (reading comprehension), Maths (measuring the time), social communication, listening skills and following instructions from both adults and one another. As you can see in the photos, the students were really enjoying time spent on outdoor learning.

We are coming back there after the Easter break to learn even more!
