

Message from the Headteacher:

Hi All,

Welcome to another newsletter from LAH.

Our newly developed curriculum and pathways have been uploaded to the website. Please have a look:

<https://limeacademyhornbeam.org/about-us/curriculum/>

We want all our parents to fully understand the curriculum and what our young people are learning. We will also be arranging parental visits to come and discuss the curriculum. We would love you to attend!

We are also introducing a reading session on Friday mornings, in which parents/carers can come and read with your young person in school for 30 minutes. Please keep an eye out for the upcoming dates.

Can I please remind you all around the change in weather and ensuring that learners have the appropriate clothing for this time of year.

Have a great weekend.

Kind Regards,

Ben Hawes

Arbor Parent Portal

We currently have 64% usage on the portal.

Please download from your Play Store on your phone, the Arbor App.

Go to <https://login.arbor.sc/> and click Forgot your password?

To finish creating your account you just need to set a password. Your username is your email address.

If you have any queries, please contact the school office.

Post-16 Parents and Carers

We are excited to announce the following events taking place this term:

Meet and Greet from the **Disability Resource Centre**, available to speak with parents/carers on **Friday, 13th of May 2022 at Brookfield House** - in the Bungalow. The open event will start at 10 am - 12 pm.

Alternative Provision Fair taking place on **Friday, 20th May 2022 at Brookfield House**. The event starts at 10 am - 12 pm.

This event will offer parents/carers the opportunity to meet external providers and consider next step options. Our Careers and Progression Advisor will be available to book appointments and answer any questions you may have.

Any questions, please feel free to contact me

Edith Windsor-Stokes

Learning @ BFH – Rose Class

This term Rose Class have been busy exploring our exciting new topic “Sowing, Growing and Planting”. This week during our literacy lesson, learners got to explore a sensory story called “Planting a Rainbow”. Learners planted bulbs and seeds and we are planning to watch them grow into a rainbow of

flowers and vegetables. Most of the seeds have come from fruits and vegetables the learners have eaten. Sensory stories help our learners build on their vocabulary and develop their turn-taking, sharing, and social skills.

During our weekly food tech lessons, learners have been recognising the difference between healthy and unhealthy lifestyle choices. Our weekly lesson gives

our learners the opportunity to explore different types of foods and teach essential life skills around food and cooking. Some of the recipes we have made this term are gazpacho, roast potatoes and fruit smoothies.

Learning @ WM – Jordan

Jordan’s class have been very busy for the past two weeks in identifying and classifying different modes of transportation linking to our theme ‘The cosy country’. We explored different modes of transport and categorised them as air, water, and land transport. We also worked in teams to identify the

similarities and differences of transport types and examined the features of each transport. This has allowed the students to think and develop their investigation and analytical skills further.

All pupils enjoyed designing their own transit, demonstrating their creativity and reasoning. This was a fantastic opportunity for pupils to develop their communication, listening and imaginative skills.

I really enjoyed designing and making my own transport. I had to say what each part of my design did which I found a little hard but I did it! 😊

Forest Schools Experience

On Tuesday, 10th May, Pearson Class had their next Forest Schools Experience Session. We started the session with a quiet walk through the forest, focusing on what we can hear, see and smell.

The students enjoyed part of the Drama lesson included in the activities. You can see how much fun they had in the photos! During the last part of the session we had learners guiding us using a map. They were excellent at giving instructions and directing us!

They were very focused and came to our destination with plenty of ideas to share. They also used a lot of descriptive vocabulary, transferring their skills from literacy into the world around them. Next, activities were about flora and fauna in the forest, which is linked to our half term topic.

We stressed building communication skills, self-confidence and self-esteem through role play. These skills are the basis for successful and independent lives of young people, linked to our vision – Shaping lives, a lesson at a time.
