

Message from the Headteacher:

Hi All,

This week has been an exciting week. We have our wall Art developed at Brookfield House and our new library is being developed at William Morris.

I hope you all enjoyed the parent consultation meetings where you had the opportunity to talk to the teacher about the timetable, the curriculum and anything else you wanted to discuss. It is important that we keep the lines of communication open as we want you all to fully understand what your young person is learning at Lime Academy Hornbeam.

I hope you all have a nice weekend.

Ben Hawes

Lead Practitioner

Message From Medical Team @ William Morris

Dear Parents,

Please can we ensure that all medications brought into school has been prescribed by a doctor. If any medication that hasn't been prescribed and the school has not been informed such as over the counter medications these should not be with the student and the medication should be given at home.

Many thanks

Cassandra

Learning @ BFH – Green Class

This half term in Green class we have been looking at the natural world as our theme. This week we have particularly enjoyed creating a volcano and learning about the lava and the heat. The learners really

enjoyed the reaction that they saw and were anticipating it the second time that we made the volcano erupt. In numeracy we have also enjoyed looking at our numbers, exploring each number individually but also through songs. This has been through multi-sensory approaches, including water play which is favourite. We also really enjoyed our time in the sensory room, where we have been undertaking our music lessons. The learners went for

an adventure through the forest to find the different animals that live there. We are looking forward to finding out more about the different habitats and what creatures and animals you would find in each area.

Learning @ WM – Fotheringham Class

Fotheringham class has had a great start to the term. We have settled into our new class well and getting to know our peers. We have been working really hard in our 'Understanding the world' lessons looking at the Royal Family Tree. As we all know her Majesty Queen Elizabeth II passed away and we were all very saddened by this. We showed our school value of 'Respect' by remembering her through pictures and looking at her life before the throne and after the throne. The Queen reigned for over 70 years which was such a huge accomplishment.

We have been tracking the changes that will happen in our country following The Queens passing. We are very excited to see how our money has now changed to King Charles III face. Also, for the very first time a £5 coin will be in circulation in our country featuring the Kings face. This has also linked in with our Numeracy lesson on Money.

Fun Fact - King Charles III is facing the opposite way on the coin than The Queen.
