

Message from the Head teacher:

Dear Parents/Carers,

Please complete questionnaire regarding communication methods with school. This will support us formulating our policies for next year.

This week has been another busy week with the Local Authority visiting us to discuss ways to develop our partnership work.

We are actively involved with a number of outside agencies, and I feel it is essential to develop positive relationships within the community which will support our learners progress.

We continue to be outward looking and are beginning to see the benefits of these relationships a great example being our forth coming careers fair which will be held on the 14th May.

Kind Regards

Sean Egan

Head Teacher

Learning @ BH – Maroon Class

It has been a busy week in Maroon Class! Last week we used Virtual Reality equipment to explore natural surroundings!

We have been using soil, flowers, leaves and grass to explore Spring themes in our sensory story “And Then It Was Spring” as well as during creative art.

Learning @WM – Hawking Class

During our recent forest school education visits, the Hawking class embarked on an exciting journey of learning and collaboration. The learners honed their survival skills by constructing tripod natural shelters and mastering essential knots like the clove hitch, lashing, and frapping. After crafting two shelters together, learners engaged in spirited rounds of capture the flag, fostering teamwork and strategic communication.

Additionally, they connected with nature by moulding clay into symbolic representations of the forest and contributed to the school farm by planting seeds for future growth. Moreover, the learning extended to understanding evergreen and deciduous trees and learning how to preserve trees in science lessons.
